Brookwood High School | Snellville, Georgia   Oct. 2017 – May 2019
High School Degree
- **Award:** Honor Roll every semester (4 years)

EXPERIENCE

University Computing – W&L | *Help Desk Technician* | Lexington, VA   April 2021 – Present
- Provide first and second level technical support to faculty and student users
- Work as a member of a team to diagnose and fix both computer and network problems
- Provide one-on-one user support through both phone and face to face contact
- Train and mentor new help desk staff

Computer Science Department – W&L | *Teaching Assistant* | Lexington, VA   Aug. 2020 – Present
- Assist students taking both CSCI 111: Fundamentals of Programming and CSCI 112: Data Structure, both Python-focused courses, with their weekly labs
- Work closely with Computer Science professors during the weekly 3-hour labs to help 20 students solve complex problems and answer any of their programming-related questions
- Engage in discussions with the students to help further their understanding of difficult topics in Computer Science, which include object-oriented programming, data structures, algorithms, etc.
- Hold evening office hours to help students with coding and debugging their programming projects and answer any questions they have about topics in Computer Science

Journalism Department – W&L | *Floor Director* | Lexington, VA   Sep. 2019 – Present
- Coordinate newscast anchors and reviewed scripts for live television broadcasts, twice weekly
- Directly influence show production by editing scripts and planning news blocks in pre-production and live broadcasts
- Meet with anchors for 3 hours every week to iron out inconsistencies in microphones and cameras and analyze the anchors' stories

LEADERSHIP & EXTRACURRICULARS

eSports club | Co-President   2021 - Present
Washington and Lee University | Lexington, VA
- Host school-wide gaming events
- Coordinate student teams to participate in national collegiate eSports tournaments
- Manage a $3,000 budget, bringing in speakers about the gaming community as well as hosting 4 school-wide events throughout the school year

Computer Science Club | Co-Founder   2015 - 2017
Discovery High School | Lawrenceville, GA
- Taught members how to wire hardware and write software for an hour every week after school
- Planned events for club members and managed funding and logistics, such as room reservations and club forms
- Manage a $1,000 budget to bring in student teachers from Georgia Tech and buying equipment to learn with
